

## PRINTABLE FIT CHECK

Thank you for your interest in DHL MoonBox! Below you will find an easy kit for cutting out and putting together your own capsule to see which size is right for the item you'd like to send to the Moon! Simply print out the PDF, and follow the key below to know when to cut or fold. We suggest using the tabs to connect the sides together with tape, but they are optional. Once you've assembled your capsule, place your item inside to see if it fits!

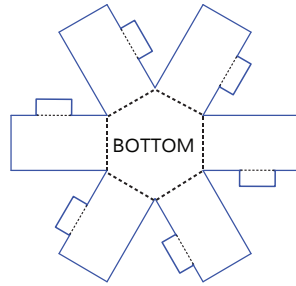

**\*Please note: In order for the fit check to work, do not select "shrink to fit" when printing.**
